

# You've got a Passport to Safety PIN and Password or Wallet Card... What's Next?

First, give yourself a pat on the back – you're doing something great for yourself to prepare to be safe on the job by taking this challenge and knowing the basics about workplace safety. Follow the steps below to take the challenge online.

## step 1 - get prepped

### get to the site

[www.passporttosafety.com](http://www.passporttosafety.com)

click "here to take the challenge"

### next... grab your PIN and password

(If you don't have one already, go to "sign up here" on the website and pay your 9 bucks)

### ...ready for the challenge?

## step 2 - take the challenge

### sign into your account

Enter your PIN and temporary password

**change your password and update your profile...** Don't worry, this information will be kept confidential.

### take the challenge!

Do you have a spare hour? If not, you can start now and come back and finish later. The site will take you back to where you left off.

### ...and guess what...

You're **guaranteed to score 100%** (how many tests can make that kind of offer?) If you get a question wrong you'll be given info and asked more questions to make sure you get it – **because we care and your safety on the job is important!**

## step 3- congrats!

**you've achieved your "Passport to Safety"...** You're ready to enjoy your *lifetime membership*. This entitles you to:

- **print your all-in-one certificate and transcript ...** What can you do with it? You could...
  - show it to your employer
  - put it in your portfolio
  - add it to your resume
  - frame it!... well, maybe not
- **update it by adding related courses like...**

First Aid/CPR	Boating Safety
Babysitting	Lifeguard Training
WHMIS	SmartServe
- **come back often...** New stuff is added all the time, like
  - new tests and challenges
  - interactive games
  - Candace's Corner

**Hold on to that PIN and Password – they're yours for life! Who knows when you'll be asked to show your transcript – be ready!**

Remember! Job specific training is always required.

*Your boss must always train you to do your job safely. It's the law!*
